MEMORANDUM FOR: Operations Officer, NPIC

SUBJECT: Elint Plots and Elint Time Correlation Sheets

1. The Elint Plots (EPs) and Elint Time Correlation Sheets (ETCSs) were initiated at the outset of the T program at the request of OSI and NTPC. Their purpose was to provide data that would assist these components in their analysis of Elint acquisitions. At the start verbal requests for subject data were submitted following each mission in which an Elint analysis was desired.

2. Since then this requirement has been incorporated into the Intelligence Processing project and has been prepared as part of that project.

3. In May 1960 the recipients of the Elint Plots and Elint Time Correlation Sheets were queried as to their requirements, with the following results:

<u>EP</u>	Army	3 copies.	Present distribution adequate.
	AF	6 copies.	Present distribution adequate.
	NSA	1 copy.	Present distribution adequate.
	ORR	1 copy.	Present distribution adequate.
	OSI		On specific request only.
<u>ETCS</u>	NSA	1 copy.	Present distribution adequate.
	OSI	1 copy.	Present distribution adequate.
	NPIC	1 copy.	Stop distribution.

It should be noted that NSA is the only activity receiving a copy of both the EP and the ETCS.

4. Because of other work of apparent higher priority, the subject items have been assigned the lowest priority within the IP project. Consequently we are far behind in the preparation of these items, but no objections have been raised by the customers, nor have questions been asked concerning the delinquent delivery. This could mean an appreciation of current workload on priority projects, or it could indicate a lack of need for the information.

5. I think it is time to again query the recipients to reestablish their needs. We will be happy to continue if the need is there.
